

Corporate Presentation 2011

Company overview:

- | NATURE is a leader in handling maritime and offshore waste
- | London AIM listed
- | Port reception facilities in Gibraltar, Norway and the Netherlands
- | Over 350.000M3 of waste treated in 2010
- | Contracts with leading shipping companies and oil-majors
- | Over 25 years of waste collection and treatment experience
- | Our experienced engineers design, build, maintain and operate waste treatment facilities
- | We see corporate social responsibility (CSR) as business as usual

Organisation chart:

Maritime services:

- | *NPRF* in Gibraltar delivers services in the Western Mediterranean, from Malta to the Canary Islands
- | *ISD* in Rotterdam covers the Amsterdam-Rotterdam-Antwerp (ARA) region
- | *SART* in Stavanger delivers services to the entire Norwegian continental shelf
- | Collection and treatment of all Marpol Annexes I - VI (including all chemical washings) through our port reception facilities

Maritime services:

- | NATURE operates 15 barges to collect your cargo, processing and ship generated waste from port and offshore. (Mediterranean Sea)
- | We use “Nature” to treat our separated water. Unique bio-treatment with the highest quality standards of discharged water.
- | Nature’s patented “green and sustainable” chemicals and technology are used for many applications. In particular, for offshore and complex water treatment
- | In the coming 3 years we will open port reception facilities on Panama, Middle East, US Gulf and Singapore.
- | We give oily waste a second life claiming **“Waste to energy”**

References:

| NGRP Maritime Services:

| NGRP Oil- and Gas:

Oil and Gas Services (NTS):

- | Nature's solutions to the oil Industry evolved from research begun at Stavanger University in 1996
- | A unique patented chemical has been invented to separate hydrocarbons and suspended particles from water
- | Nature designs, builds, implements and operates waste treatment solutions for the oil and gas industry both on and offshore

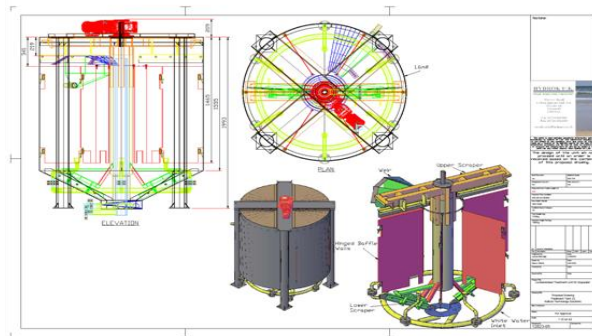

Oil and Gas Services (NTS):

- | Unique containerised mobile solutions to treat waste at remote locations both on and off shore
- | Nature helps with environmental clean-up projects such as decommissioning of platforms, soil remediation and oil separation from sand
- | Produced water treatment solutions

Container fitted with process equipment

Design of high water-temperature flotation chamber

Water treatment container (blue) installed offshore on Transocean Arctic

NATURE's Environmental Solutions (NESL), designs, builds and Operates "State-of-the-Art" Waste Treatment Facilities

- I For the government of Oman Nature has designed and builds a complete new Port Reception Facility at the Port of Duqm to be operational Q3 2011 Targeting 400.000 M3 of waste to be processed per year.

Engineering:

- | For **Halliburton in Kazakhstan** (Kasharagnach Oil Field) Nature has designed and built a complete on-site containerised unit for treating water from drilling and refining activities.

Expected to be operational in Q3 – 2011

ESS:

- | Through its engineering activity “Ecoscrub Solutions” Nature has provided the solution for odour and emission problems.
- | The Ecoscrub technology has proved its effectiveness with an emission and odour reduction of over 90% for fuel oil.

Strategy:

- | Nature aspires to be the global market leader in hazardous waste treatment in the maritime, oil and gas Industry and is passionate about:
 - | **Performance:** responding rapidly to provide our corporate clients with a global service network, tailor made innovative solutions and a healthy profit margin.
 - | **Planet:** using the best available technology to minimize environmental impact and to create waste to energy whenever possible.
 - | **People:** offering a worldwide standardized service, looking after our employees and the community and being transparent in how we process our clients' waste

Corporate Social Responsibility:

- | Our main focus is **CLEAN SEAS!**
- | Nature Group has the ambition to have a top 5 position as one of the most sustainable operators in the global maritime sector.
- | Within **People**, **Planet** and **Performance** several focus areas are identified which frame the CSR ambition of Nature Group.
- | We practice what we preach and strongly believe in:
