

This announcement contains inside information

Nature Group plc

("Nature Group" or the "Group")

Suspension from Trading

Nature Group plc (AIM:NGR), the provider of port reception facilities and waste treatment solutions for the oil, marine and process industries, provides a further update following the announcements released on 7 and 15 March 2018. On 7 March, the Group confirmed that its overall financial position remained uncertain and that in the event it did not sell its Oil and Gas division before late April it was likely to face serious liquidity constraints. On 15 March, the Group announced it had subsequently received indications of interest from a number of parties in relation to the possible acquisition of certain of the Group's Maritime operations as well as further indications of interest in relation to the possible acquisition of the Group's Oil & Gas operations.

The Board of Nature Group (the "**Board**") is continuing to progress discussions with several parties and will continue to do so. The Group has, however, recently been notified of a one off, immediate tax liability which, combined with the Group's existing cash flow constraints, would have a significant impact on the Group's liquidity.

Accordingly, the Board has requested that trading of its shares on AIM be suspended from 27th of March 2018 whilst it seeks to clarify its financial position.

Further updates will be issued in due course.
